We Are Pleased To Meet You

Four Points Technology is a CVE verified Service Disabled Veteran Owned Small Business (SDVOSB) dedicated to providing IT Products and Professional Services to the Federal Government. Four Points Technology offers solutions that support a wide variety of business initiatives specifically suited for Government organizations. We are committed to:

- Ensuring that our clients can fulfill any IT need
- Providing world class customer service and program management
- Helping clients easily meet Service Disabled Veteran Owned & Small Business purchasing goals

What We Can Provide – Access to Top Tier Products and Support Services

By leveraging our well-established relationships with major vendors, suppliers and manufacturers, Four Points Technology's approach begins with an assessment of each client's needs and objectives. Our experienced staff is committed to supporting your unique requirements in order to best fulfill your needs by providing efficient and cost effective solutions. We offer:

- A complete suite of hardware/software products
- Access to thousands of product lines
- Enterprise software licensing
- Strategic relationships with major manufacturers
- Ease of purchasing with our SEWP Contract NNG07DA16B and GSA schedule GS-35F-0553P

What We Can Provide – Complex Services and Solutions

Four Points Technology is part of both the Harris (large) and 7 Delta (SDVOSB) Transformation Twenty-One Total Technology (T4) teams. We are providing the following professional services to the VA:

- Program Management
- System/Functional Analysis
- Subject Matter Expertise
- Software Development
- System Infrastructure/Design

- Customer Support
- Database Design
- Network Administration
- Network/System Engineering

Examples of current VA T4 Projects

HAPE X12 (Health Administration Product Enhancements)

The VA must comply with the Health Insurance Portability and Accountability Act (HIPAA) and Affordable Care Act (ACA) rules for electronic processing of healthcare related data. Electronic Data Interchange (EDI) healthcare transactions must comply with a set of published industry standards. Four Points Technology is performing System/Functional Analysis and Software Development supporting VA's implementation of current and forthcoming.

CDN (Content Distributed Network)

The VA Employee Education Services (EES) and Office of Information and Technology (OIT) have a requirement for support services for the continued deployment and operation of the Content Distributed Network (CDN). CDN is an enterprise system that delivers Veterans Affairs Knowledge Network (VAKN) broadcasts and Content-On-Demand videos to employee desktops across the VA via internet protocol (IP). Four Points Technology is performing Network Design Analysis, and Network Administration and Support Services on this project.

EMF/FDR (Enterprise Management Framework/ Federated Data Repository)

Enterprise Management Framework (EMF)/Federated Data Repository (FDR) is an expansion and upgrade to current VA systems. This includes Engineering Services, deploying of Commercial off the Shelf (COTS) Hardware and Software, establishing connections to the Management Data Repositories (MDRs), providing training and documents, developing reports/dashboards, building web application service Infrastructure, an Enrollment System Redesign to visualize web services; and Advocacy & Maintenance of standardized lifecycle processes. Four Points Technology is performing System Design and Software development on this project.

Our Partners and Strategic Relationships

Four Points Technology utilizes a well-established teaming approach that has proven successful in securing multiple contracts of various sizes and scope. We have excellent relationships with countless OEMs and several large installations and Enterprise Agreements within the VA. A sampling includes:

- Dell – All Products
- BMC Software – Enterprise Licensing
- Intersystems Cache – Database Software
- Hewlett Packard
- BT Conferencing - VTC Projects

- Axway – OCSP SW
- ActivIdentity – PIV
- HBGary – Security
- RIM Blackberry
- PocketMD
- Corestreet –Secure File Transfer

- Trustwave – SIEM
- Good Technology – Moblie Messaging/MDM
- InterMetro Industries
- Tangent Inc.
- Canvys Visual Technology Solutions

In addition, Four Points is a Value Added Reseller of many other IT products; we can give you access to hundreds of hardware and software manufactures as well as supporting services.
