

COMPANY OVERVIEW

Enterprise Transformation Services, LLC. (eTRANSERVICES) is a provider of cost saving strategic Information Technology (IT) Consulting Services, IT Engineering and Integration Services, Application Development Services, Enterprise IT Services, and Program Management Support Services for governments and commercial organizations. We help our clients solve their business challenges with innovative thinking and processes while leveraging the appropriate technologies. Our solutions enable our clients to identify ways to use innovative technologies to streamline their delivery of services to lower cost, decrease service delivery times, and improve the customer experience. eTRANSERVICES capabilities are organized in the solution areas we feel will enable the transformation of most enterprises. We use an Enterprise Architecture Framework that is focused on sustained enterprise transformation. Our Business Process Model and Service Delivery Methodology are industrialized, based on Low-Cost IT Services with the goal of reducing cost while managing risk, integration and customization challenges. eTRANSERVICES is committed to providing outstanding customer service, innovative solutions, and superior outcomes for our clients using our franchised methodology.
