

## *Defense Acquisition Support*

Defense Acquisition Support Services, LLC (DAS) is a small woman owned Systems Engineering and Technical Assistance (SETA) business established in 2007 with its headquarters located in Monmouth County, New Jersey. The mission of DAS is to provide the Federal marketplace superior acquisition support, budget support, program management, engineering and logistics support services. DAS provides expert experienced personnel to DoD, the Veterans Administration and other Federal Agency Programs.

Trends in the Federal Government core man power mix indicate a continued shortage of programmatic functional area experts through the next decade. The seasoned DAS acquisition and budget/programmatic staff will augment Government programmatic capabilities by providing the following skills and experience at competitive market rates.

### **Acquisition Management Support**

- Complete DoD Acquisition Cycle Experience and Understanding
- Pre-award Acquisition Documentation Development including IGCEs
- Budget planning, Cost Allocation and Appropriated Funding Tracking
- Contract Administration and Negotiation Objectives Support
- Source Selection Expertise

### **Budget/Program Management Support**

- Operations Research Support
- Contract Cost and Progress Reporting
- Budget Tracking
- Project Visibility and Tracking
- CPR, C/SSR, Earned Value Management Experts
- Program of Record Documentation
- Management Accounting
- Manpower Management

### **Program Technical Support**

- Systems Engineering
- Architectural Engineering
- Test Engineering
- Logistics and Training

As a SETA centric company, DAS safeguards itself and the customer from organizational conflicts. DAS is expert at understanding the Federal customer's needs regarding Organizational Conflicts of Interest (OCI), Protection of Proprietary Information, Procurement Integrity Laws, Inherently Governmental policies and definitions and Personal Services avoidance. DAS personnel sign OCIs and Non-Disclosure Agreements and they fully understand their professional and personal responsibility to these business ethic concepts. Integrity in the workspace is our core business.
