

Founded in 2010, Seawolf Solutions Incorporated (SSI) is a Service Disabled Veteran Owned Small Business (SDVOSB) that is focused on supporting customers at the Departments of Veterans Affairs (VA), Homeland Security (DHS), Energy and Defense. During the first year of operations the company was awarded a prime contract in the Navy's SeaPort-e vehicle and was certified as an SDVOSB by the VA's Center for Veterans Enterprise (CVE). Our core competency areas are Program and Project management, Capital Planning/Investment Controls, and Data Center Administration. SSI has over 25 employees and our 2012 revenue projection is over \$3 million.

MISSION

Seawolf Solutions, Inc. (SSI) was formed to provide the highest quality professional IT services. The founder brings the same qualities to the company—dedication, integrity and perseverance—that led its namesake, the USS SEAWOLF (SSN 21) to excel at sea as the world's most technologically advanced nuclear attack submarine. SSI is committed to collaborating with our customers to fully understand all of their needs and requirements and thereby allowing our employees to deliver high quality results efficiently and within budget.

CORE CAPABILITIES

- + Program Management, Project Management
- + Enterprise Architecture, Infrastructure Planning
- + Capital and Budget Planning, OMB300 Support
- + Strategic Planning Services
