Patriot Direct brings an End-to-End Document Life cycle Solution to our clients.

We are the
**Document
Management
Specialists**
We take you paperless.

OUR DIFFERENCE

Our distinct approach is designed to deliver value in four ways:

- Improved Margins
- Service Agility
- Process Speed
- Active Compliance

We diagnose a company's specific problems and design a specific, integrated solution to effectively and efficiently solve your problems. It is not a "one-size-fits-all," commodity-based approach to service.

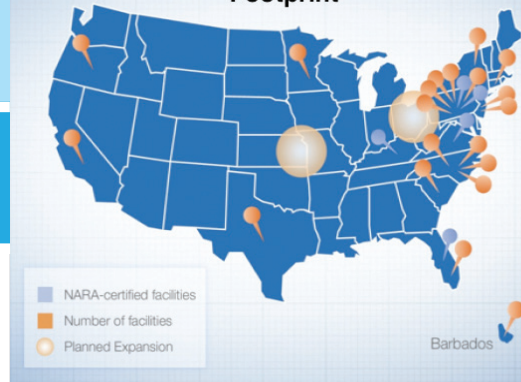

Scalable Solutions

Today's clients increasingly seek single-source vendors who possess the ability to provide comprehensive services across core geographies. We believe Document Management must consider and begin to integrate every phase of the document life cycle, to build toward an end-to-end solution.

Why?

- Removes non-value actions and costs
- Preserves the chain of custody
- Flexible for multi-channel communication

Footprint

Patriot Direct and our strategic partner Diversified, provide a national footprint and scalable solutions. That is our competitive advantage. We are positioned to service large national clients.

WE KNOW YOUR CHALLENGES

- Expense reduction
- Scalability
- Reduce fixed and overhead costs
- Cycle time requirements
- Privacy and compliance requirements
- New regulations and governmental mandates
- Multiple forms of communication
- Accessibility and control

OUR PRACTICE AREAS

- Government
- Healthcare
- Associations
- Financial
- Insurance

Patriot Direct is a solutions provider with industry specific knowledge and document management expertise.

OUR APPROACH

Assess-Solve-Deliver (ASD):

Fully integrates our clients' processes, preferences and needs, while delivering solutions that align today's demands with tomorrow's needs.

KEY DELIVERABLES

- Effective
- Efficient
- Innovative
- Flexible
- Extensible

Our scalable programs employ continuous process improvement for the entire lifetime of our client engagement.

LIFE CYCLE DOCUMENT MANAGEMENT

- Bottom-line results
- Anticipates and secures compliance
- Creates speed to impact cycle time
- Agility to respond to market and regulatory changes
- Ability to workflow multi-channel communication
