Application Development	Software & Database Development, Website and Web-based Applications, Website Redesign & Maintenance, Mobile Application Development, Social Media Applications, Portal Maintenance & Support, Desktop/Client Server Application Development & Maintenance, Section 508 Compliance, Implementing Agile Methodology
Systems Integration & Operations and Maintenance	Network & Critical Infrastructure Protection, Video Conference (VTC), Teleconferencing, Patch Management, Virtualization with OS Hardening, Domain Server Management, Disaster Recovery Support, Help/Service Desk Support, Desktop Imaging, Desktop Installs, Application Installs & Upgrades, End User Support, Knowledge Base Management, COTS Implementation, Test Lab Services, Workstation Refresh, Server Virtualization, Network Management, Configuration Management, Data Warehousing & Business Intelligence
Financial & Acquisition Management	Audit Readiness and Internal Control, Corrective Action Plan and Process Improvement, Performance Measurement/Trend Analysis, Decision Support Services, Audit Liaison Assistance, Financial Management System (FMS) Support, Improper Payment Elimination, Budgeting/Finance Military Pay Accounting, Finance and Budget Management, Acquisition Support, Cradle to Grave Contract Management, Conduct Cost and Make/Buy Analysis, Evaluate Financial/Acquisition Policies, Procedures & Systems

Innovative services to manage
your business needs

PROGRAM MANAGEMENT

TISTA's program management experience includes managing scope, costs, and schedules with appropriate planning and staffing to meet client objectives for IT, Financial, Acquisition, and Logistics program offices. TISTA Program Managers exercise skills based upon the practices of the Project Management Institute (PMI) and the structured processes of ISO and CMMI. Our logistics analysts fully participate in the administration, direction, and evaluation of Supply Office activities by managing and accounting for over $1 Billion in durable goods ranging from expendable property to automated electronic systems. Our Project Management Professionals and logistics managers support the **Internal Revenue Service (IRS), National Guard Bureau (NGB), National Aeronautics and Space Administration (NASA)** and **the Department of Veteran Affairs (VA)**.

CYBERSECURITY & INFORMATION ASSURANCE

TISTA provides accurate and comprehensive support for cybersecurity services and Information Assurance (IA) programs that assess and implement integrated solutions for physical, technical, operations, personnel, computer, and communication security requirements, including disaster recovery assessment. Our services include systems security architecture development, test and evaluation, certification and accreditation (C&A) support, compliance audits, and inspections for client-server or web-based environments. Our work at the **U.S. Department of Agriculture (USDA), IRS, Defense Information Systems Agency, (DISA) Defense Logistics Agency (DLA), National Institutes of Health (NIH)** and **VA** includes review of applicable security disciplines and controls to identify systems requirements and ensure system/data availability, integrity, and confidentiality.

APPLICATION DEVELOPMENT

TISTA brings extensive experience in developing and maintaining applications and websites, working with both Federal and commercial entities. TISTA has leveraged the Agile development methodology to completely redesign a major intranet site at the **IRS**. TISTA supports **DISA** by maintaining and deploying multiple high-visibility web-based applications compliant with the constantly evolving guidelines and policies of the **Department of Defense (DoD)** and **DISA.** At the **Marine Corps,** TISTA's support includes database management, applications management, web and OS support, RAC management, mainframe support, enterprise backup and recovery, system architecture support, and application software support (analytical, testing and programming). At **CISCO,** our team works on the development and integration of a comprehensive IP-based dispatch and incidence response software.

SYSTEMS INTEGRATION & OPERATIONS AND MAINTENANCE

TISTA supports our clients at various levels of operations and maintenance including patch management, configuration management, virtualization with OS Hardening and much more. TISTA's approach provided exceptional IT operational support services following the ITIL framework at **DISA, Office of Personnel Management (OPM), VA, Marine Corps, IRS, NIH** and **Metropolitan Washington Airports Authority (MWAA).** Our proven method allows our clients to experience a higher percentage of first-call resolution. By creating repeatable processes and properly documenting and communicating these processes, we continue to minimize support costs and ensure high levels of user satisfaction, enhance productivity, and effectively use resources. Our IT solutions address security and affordability requirements in every major segment of the network environment (network applications, middleware, LAN, and WAN) to ensure appropriate functionality, performance, manageability, and compatibility for our clients. Our systems integration experience includes implementation of an enterprise-wide Data Warehouse and Business Intelligence solution at the **Prince George's County in Maryland**.

FINANCIAL & ACQUISITION MANAGEMENT

TISTA provides financial process improvement, audit readiness, and remediation services to: eliminate financial management weaknesses and deficiencies identified during the annual audits, assist in addressing external auditors inquiries, improve the preparation of agency's financial statements, maintain an unqualified audit opinion, and assess financial management areas and to provide recommendations on enhancements to business processes. We manage and track funding and account transactions, conduct cost analysis, conduct make/buy analysis, forecast expenditures, process and account for invoices, and evaluate financial policies, procedures, and systems. Our acquisition support experience includes acquisition planning, coordinating, preparing contractual pre-award documents, contract files, technical research, management of assigned contracts, and evaluation and negotiation support. Working with clients such as **NASA, NGB,** and **VA,** our highly trained and certified personnel work with contracting officers and financial managers to provide financial and acquisition support services.
