J George Electrical Service (also doing business as J George Services) is specializing primarily in electrical contracting. Our goal is to be the best "go to contractor" not only in electrical contracting, but most any need that may arise within the DoD and VA community.

Capabilities:

We specialize in the construction of electrical systems according to customer's specifications. And we design and build according to customer's needs. We are a union contractor with an aggregate bonding capacity of Four hundred fifty thousand dollars.

Facilities and equipment:

- We are a fully equipped electrical contractor.

Expertise:

- Master electrician with over twenty-five years in the contracting business and over twenty years of computer aided design experience.
- Administered the supplying of equipment to various commissaries for the Defense Commissary Agency (DeCA).

Past performance:

- Design & build machine shop electrical systems.
- Design / build lighting system for Waynesboro Hospital Heliport, Waynesboro, PA.
- Design / build security system according to GSA specification for Social Security Office in York, Pa.
- Projects built to specification for:
 - Army Corps of Engineers
 - Pennsylvania Department of General Services
 - Several retail stores
- Various electrical maintenance and renovation jobs.
- Supply pressure washers and steam cleaners to the Defense Commissary Agency

Differentiators:

- My military service was cut short in 1975, as proprietor of J George Services I continue to do what I can to help those who have served and those who continue to serve.
