

eFederal Systems

CAPABILITIES STATEMENT

Your SDVOSB Partner

eFederal's Energy Optimization Program, is a division of eFederal Systems that is a Verified Service Disabled Veteran Owned Small Business (SDVOSB), focused on achieving cost reductions through the implementation of technology that reduces the amount of electricity required to run lighting, HVAC systems, manufacturing equipment, etc. This stable technology reduces electrical use from between 10-30% resulting in a direct monetary savings, which goes right to the bottom line. We are so sure that our technology will reduce electricity use, it is not only guaranteed but also backed by an insurance policy administered by an internationally renowned Insurance company.

CAGE: 6VMN7

Core Competencies

DUNS: 059460027

AN EXPERIENCED PARTNERSHIP

- EASI Inc. – an international leader in industrial and commercial energy conservation
- eFederal Energy Optimization – a division of eFederal Systems, a SDVOSB technology services company
- Teamed together they bring proven capabilities, experience and technology to the energy conservation and green energy environment

ENERGY CONSERVATION

- Reduce electrical energy consumption
- Decrease greenhouse gas emissions
- Improve power quality, power factor and voltage
- Increase electrical system capacity
- Reduce unnecessary heat
- Improve cooling capacity of air conditioning and refrigeration
- Lengthen lives of motors, lights, air conditioning and refrigeration

ELECTRICITY SAVINGS PRODUCTS

- Power Quality-has a group of products ranging from passive filters to active harmonics correction devices that detect and correct harmonics.
- Lighting Correction - offers a wide array of lighting retrofit products designed for all types of lighting systems
- Electrical System Work - our electricians may find electrical system issues such as unbalanced voltages and loose connections. These can also contribute to system inefficiencies. Our electricians can usually perform corrective actions at your request, which will lead to more energy costs savings and help prevent electrical system problems.

NAICS CODES (Partial)

238210 - Electrical Contractors and Other Wiring Installation Contractors

334419 – Other Electronic Component Manufacturing

423610 – Electrical Apparatus and Equipment Wiring Supplies and Related Equipment Wholesalers

423690 – Other Electronic Parts and Equipment Merchant Wholesales
