employees, creating an environment of trust, relationship building, and prosperity. EPM leads, manages, and completes almost any type of government contract with our efforts focused on:

1. Fire and Life Safety (Fire Protection Services)- construction, specialty construction, testing-inspecting-servicing safety systems, and repairing them as required;
2. Security Consulting- Security assessments which result in full-blown security planning and protection implementation as well as emergency management planning;
3. Contract Consulting and Program Management- certified and trained staff placement and program management;
4. Information Technology Solutions and Support Services- information security planning, staffing, and material purchasing to include data center infrastructure support equipment;
5. List of Materials (LOM) and Purchase Orders: furnishing the government with needed materials and services; and
6. Grounds Maintenance and Landscaping- care of VA cemetery grounds as well as headstone alignment and replacement.

Established in 2006, EPM has a nationwide presence with our headquarters in Stafford, Virginia, and core capabilities which revolve around seasoned management staff, policy experience, and active leadership. EPM's leadership and program management expertise in emergency planning, schedule and resource coordination, and customizing solutions based on our customers' requirements. This expertise has successfully resulted in EPM's ability to consistently deliver on-time and within budget to federal government customers. EPM's corporate experience demonstrates support of projects similar in scope.

EPM clearly has the experience, expertise, and team to successfully support most government contract requirements and further understands the mission and the critical role of providing quality and reliable services. Our credentials are solid and we have a demonstrated record of achieving outstanding performance and high quality of service.
