

The Team At-A-Glance

We integrate healthcare providers' clinical expertise and experience in DOD / VA facilities design, operation, and maintenance to achieve full synergy with state-of-the-art architectural design and engineering.

Visionary Consulting Partners, LLC provides a wide range of consultative services designed to increase the ability of healthcare providers, community based organizations and public health agencies to design, implement and manage comprehensive health promotion programs and health behavior interventions. Visionary also provides information technology solutions for healthcare delivery and business process challenges, as well as project and program management services.

Etegra, Inc. is a unique full-service architectural-engineering company. Etegra has significant expertise in federal design and healthcare standards with clients primarily in the federal sector, such as the VA and DoD. Other agencies included the GSA, NGA, and NPS.

Client Spotlight

Department of Veterans Affairs (VA)

Architectural & Engineering Services: 5-Year IDIQ

In collaboration with our trusted and experienced industry partners, our team has provided a variety of architectural and engineering multidisciplinary services for the VA Heartland Network 15 over the last three years, with total task orders exceeding \$15M in construction value.

We served in a variety of roles for the planning and management of hospital and medical facilities, engineering assessments and infrastructure improvements.

We have built solid working relationships with the district's contracting officers and technical representatives through a clear understanding of the district's operating procedures and requirements.

Example Projects:

- ◆ Spinal Cord Injury Inpatient Ward Renovation
- ◆ Domiciliary Renovation to house and rehabilitate veterans
