

CAPABILITY STATEMENT

The Loch Harbour Group is a results-oriented Corporation that provides professional services to our Federal and Private Sector clients as they face today's challenges and prepare for tomorrow's opportunities. Loch Harbour Group fields a staff of professional analysts, engineers and specialists with real-world experience and proven results in all aspects of:

- Program/Project Management
- Acquisition Management Support
- Cybersecurity and Information Assurance
- Logistics Concept & Policy Development
- Training
- Business Process Re-engineering

We have extensive experience supporting the Systems Development Life Cycle and the Systems Engineering process for complex, multi-site systems. We provide effective and efficient IT Strategic Planning and Implementation support; IT Portfolio Management; and IT Governance and Change Management support. Loch Harbour Group is also on the cutting edge of training technology, Cybersecurity, Manufacturing Support, Strategic and Business Planning.

LHG is a value added partner and a key asset to our Client's!
