Core Capabilities and Business Focus

InfoTech Innovators is an Information Technology Consulting and Solutions firm. Our strength is our ability to understand a client's business and technical challenges/goals. We provide innovative technical solutions and IT consulting services to help our customers succeed. With an average of over 20 years of information technology experience, our team provides a wealth of "Best of Breed" IT insight to our customers. We provide services to small to medium size businesses and Federal, State and Local government.

Major areas our company specializes in:

TCO and IT Infrastructure Assessments

- TCO / ROI Assessments
- Cloud Readiness
- Server Infrastructure Assessments

IT Consulting

- Executive IT Consulting
- Technology Roadmap Consulting
- Cloud Consultation
- IT Business Process Consulting

IT Project Management

- Agile, Waterfall and other methodology skills.
- CMM, SEI and TOGAF skills.
- Task Management and Program Management

Web Development

- Open Source CMS skills
- PHP, HTML, CSS, JS
- Linux Web infrastructure
- Web Hosting Services

Differentiators

InfoTech Innovators brings a wealth of high quality commercial experience both in terms of the application of technology, but also the technology industry itself. We pride ourselves on our strong business acumen tenure to help us truly understand our customer's needs and provide them with quality IT support and services. We believe that *"Technology for the sake of technology is cost. Technology for the sake of stronger business results, increased productivity, or marketplace differentiations / leadership are examples of the real value of technology."*

Company Data

InfoTech Innovators LLC is a young company. Our leaders, like our owner Mr Rozell, are seasoned Technology veterans that have helped private and public sector customers to leverage technology for over 20 years.
