GSA IT Schedule 70 GS-35F-0383X

Navy Seaport-e N00178-12-D-7029

Experience and Customers:

RFL's business approach is to help its customers take an objective look at their business processes, update the way they do business, and then simplify their data transactions with today's technology. This approach helps the customer understand their total ownership costs and provides realistic cost-benefit analyses that more accurately identify return on investment (ROI).

Naval Special Warfare Command (NSWC)

- Developed Special Warfare Information Fast Tracker (SWIFT) workflow application for use with Government Commercial Purchase Card (GCPC).
 - ✓ Received two 2011 North American Awards for BPM innovation.
- Developed Special Warfare Automated Logistics Information System (SWALIS) for real-time tracking of more than four million assets.

Naval Supply Systems Command

- Sponsoring SWIFT modification for wider Navy and Marine Corps use.

Military Sealift Command (MSC)

- Surge support for global warehouse operations and ship inventories.
