

CAPABILITY STATEMENT

We provide the anchor to all your logistical documentation needs.

CORE COMPETENCIES

Established in February 2014, Entwine Management is a Veteran-Owned, Economically Disadvantaged Woman-Owned Small Business (VOSB, EDWOSB). We provide specialized expert logistics consulting and technical writing services. We strive to maintain a customer-focused, individualized relationship with each client, which ensures superior results and quality customer service. We offer exceptional expertise in the following areas:

- Acquisition & Life Cycle Logistics Support
- Training and Education Course Materials
- Technical Documentation & Doctrine Development
- Curriculum Development
- Program Management Support
- Technical Graphics/Illustrations
- Workshop Development and Presentation
- Administrative & General Management

PAST PERFORMANCE

Entwine's experience spans over 24 years. Initially supporting Marine Corps Systems Command (MCSC) with life-cycle logistics support for Tactical Remote Sensor System (TRSS) and Tactical Electronic Reconnaissance Processing and Evaluation System (TERPES) programs to more recent life cycle logistics support, configuration management, and technical writing/editing of Marine Corps and Joint publications in support of MCSC Product Managers, Infantry Weapons and Reconnaissance and Amphibious Raids. We have extensive proficiency writing and editing numerous Marine Corps and Joint publications [i.e., Technical Manuals (ETMs & IETMs), SL-3s, I-type, New Equipment Training Lesson Plans, and other life-cycle logistics documentation].

A few recent programs Entwine personnel have supported include:

- M27 Infantry Automatic Rifle (IAR)
- M45A1 Close Quarters Battle Pistol (CQBP)
- M224A1, 60mm Light Weight Company Mortar
- Tandem Offset Resupply Delivery System (TORDS)
- M16 and M4 Series, Rifle and Carbine

DIFFERENTIATORS

Entwine has demonstrated expert skills that ensure projects are completed efficiently and accurately. In today's economy and time of budget restraints, it is crucial to work with an organization that completes a project correctly and on time. Entwine personnel have a proven record of accomplishment, completing technical documentation projects at, or ahead, of schedule for the customer. Entwine has a military acquisition and logistics knowledge base that is unique to the technical documentation development arena, setting us apart from the competition.
