Overview

Mijoy Associates is a team of dedicated learning professionals who provide efficient and effective learning solutions to commercial, federal, DoD, and state clients. We offer quality learning solutions that deliver verifiable results to the organization.

Each of our associates brings unique experiences, expertise, and best practices to the design, development and assessment of innovative learning solutions. Whether you need an independent assessment of a learning program, a quick review of learning standards, or a complete learning solution that includes the design, development and implementation of a global learning program, our associates have the expertise and experience you need.

Mijoy Associates is structured to minimize organizational costs and burdens, enabling us to use the expertise and experience of our learning professionals and managers to create better learning solutions at reduced cost.

Services

Learning Program Design, Development, and Assessment

The Mijoy Associates team designs, develops, and implements custom learning programs and assessments to improve the performance and productivity of our client organizations. Whether it is technical training, soft skills, or systems training, our team will deliver an efficient and effective program. We work with our clients to understand their needs and then create a unique solution that addresses those needs in a cost-effective manner. We provide the following services.

Instructional Design • Courseware Development including: e-Learning, Classroom Workshops and Seminars, Virtual Classroom Programs (synchronous & asynchronous), and Blended Learning Programs • Simulations & Gaming • Performance Support Tools and Systems • Custom Certification Programs • Learning Program Assessments (e.g., Kirkpatrick Levels 3 & 4) • Courseware Assessments (e.g., Kirkpatrick Levels 1 & 2).

MIJOY ASSOCIATES CAPABILITY STATEMENT

Learning Program Updates and Conversion

Mijoy Associates can update and convert existing learning programs to improve organizational performance and productivity. Our experts work with our clients to identify cost-effective updates that meet their specific needs and increase the return on their investment in learning. For example, we can:

- Convert your current learning programs to *blended learning solutions, online learning (self-paced or instructor-led), mobile learning, and/or certification programs.*
- Update and supplement your existing courses to include *new processes, procedures, and regulations; performance support tools and systems; additional self-study or pre-course modules; scenario-based learning; simulations; and/or comprehensive assessments.*

Consulting

Our associates offer a wealth of knowledge, best practices, and experience to clients needing assistance with instructional media and technology for their learning programs. We provide the following services.

Strategic Learning Plans • Learning Needs Analysis • Independent Reviews of Learning Programs and Strategies • LMS/LCMS/Learning Platform Selection, Planning, and Implementation • Learning Program Management • Instructional Media and Technology
• *Cost Benefit Analyses*
