Company Data: Safety Management Solutions, LLC provides superior staffing support and safety management consultation to business entities and federal government offices in the Washington D.C. National Capitol Area. SMS specializes in the creation, management, and sustainment of comprehensive safety, workers' compensation, and continuity of operations (COOP) Programs.

An effective safety program aids in the prevention of accidents, can reduce the severity of accidents, and minimizes costs associated with accidents. We offer a full range of safety management services ranging from placing qualified professionals in your organization to "on-call" support. Let us create a comprehensive program that is tailor made to your organizational needs and will help protect your most important assets, your employees.
