Legacy Systems**

FMBT Overview

FMBT will enable us to:

Reduce costs, audit issues, and administrative burden

Standardize, integrate, and streamline all financial processes

Automate business processes, internal controls, and edit checks

Strengthen decision-making

Best Practices, Business Process Reengineering, and Organizational Change Management

Practices being integrated into the modernization include:

Hybrid cloud

Strong commitment to APIs

Unmodified COTS solutions

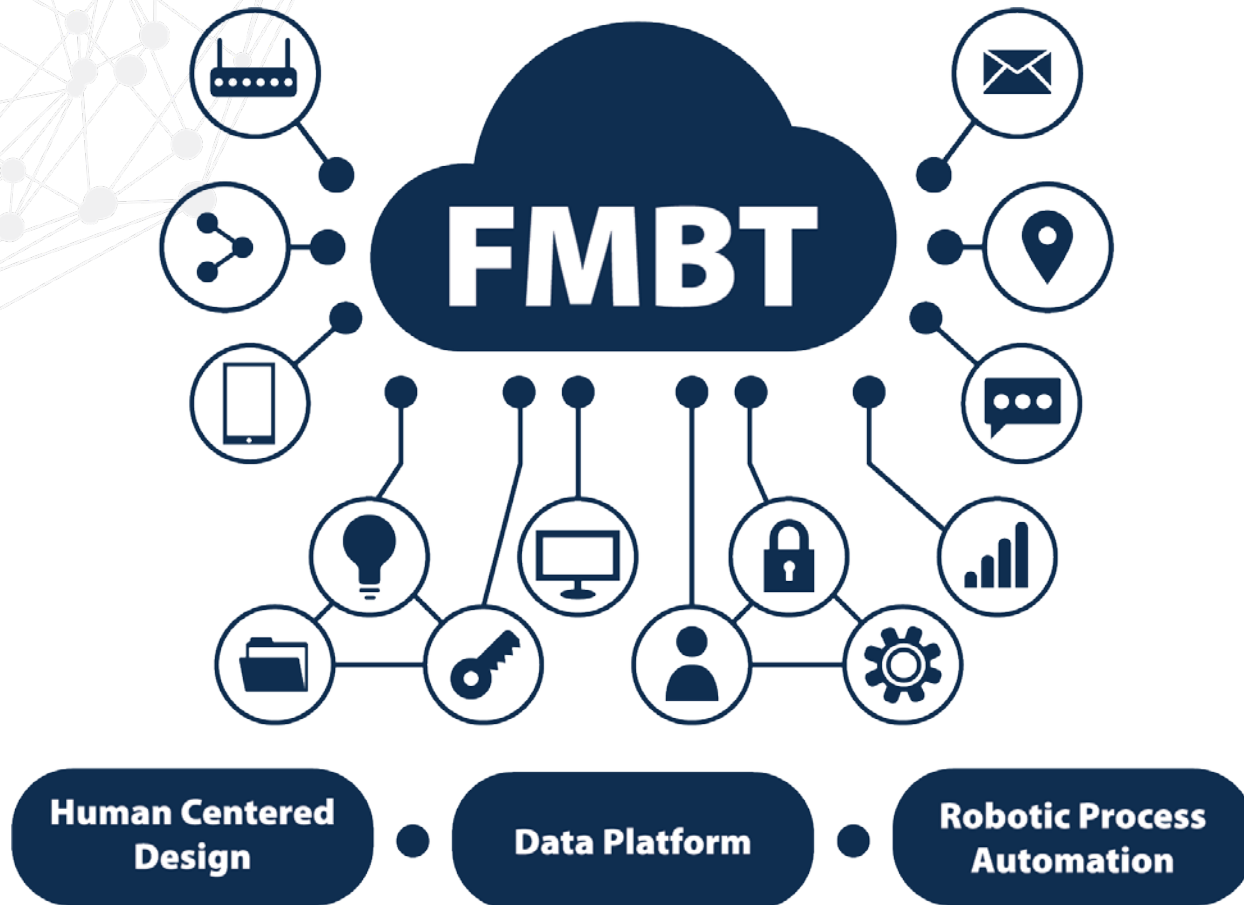

Elimination of miscellaneous obligations

Reducing Improper Payments

Modernization Efforts

Procurements and Acquisitions

Improvements provided by FMBT implementation:

- ▶ Commitment Accounting
- ▶ Vendor Self Service Portal integrated with Contract Writing System
- ▶ One system of record for both Finance and Acquisition
- ▶ Increased standardization across the department
- ▶ Reduced contract documentation formatting requirements
- ▶ Flexibility to establish alternate approval paths, depending upon dollar thresholds
- ▶ Configurable edit checks for better data quality
